

L-3009 GENSS (92 RM)

- A new, tall, very high yielding racehorse hybrid with workhorse tendencies
- Excellent early vigor and seedling growth for all tillage practices
- This hybrid flowers early allowing for good northern movement in earlier maturity areas
- Very good stalks and roots for late season harvest
- Flexing ear type with 18-20 rows of kernels with excellent grain quality and test weight
- An very good choice for grain or as a dual purpose silage hybrid
- Planting range: 28-34,000 ppa
- Also available as a RR hybrid

NEW

L-3538 GENSS (95 RM)

- A new 95 day hybrid that demonstrates exceptional yield potential
- Large flex ears with 18-20 rows of deep kernels with excellent test weight and grain quality
- Excellent early vigor and seedling growth for all tillage practices
- Very solid agronomics and can be planted on all soil types
- This hybrid flowers early for good northern movement in earlier maturity areas
- Planting range: 28-34,000 ppa
- Also available as a RR & VT3

L-4029 GENSS (100 RM)

- A new 100 day hybrid with very high yield potential
- Very good plant health and staygreen
- Semi-flex ear type with 16-18 rows of kernels with very good test weight and grain quality
- Excellent plant health and stalks for good movement from east to west
- A very good choice for either grain or as a dual-purpose silage hybrid
- Planting range: 30-36,000 ppa
- Also available a RR hybrid

NEW

L-4258 GENSS (102 RM)

- Tall 102 hybrid with a very dark green color
- Fixed ear type that is very consistent down the row
- Excellent top-end yield potential with high quality grain
- Excellent emergence and early vigor for all tillage practices
- Very solid agronomic package and late season intactness
- An excellent choice as a grain or dual-purpose silage hybrid
- Planting range: 30-36,000 ppa
- Also available as a RR or VT3 hybrid

L-5809 GENSS (108 RM)

- A new, medium-tall hybrid that demonstrates very high yield potential
- Very good seedling vigor, fall appearance and staygreen
- Blocky ear type with 18-20 rows of kernels per ear
- Very good overall agronomic package makes this hybrid adaptable from east to west
- Very good kernel texture and test weight that makes for excellent grain quality
- Best if positioned in higher yield environments
- Planting range: 30-36,000 ppa

NEW

Brand	Traits Available	Relative Maturity	Planting Rate (1000's)	Plant Height	Yield for Maturity	Test Weight	Dry Down	Drought Tol.	Ear Type	Emergence	Seedling Growth	Plant Health	Stalk Strength	Root Strength	Leaf Blight	Grey Leaf Spot

Before opening a bag of seed, be sure to read and understand the stewardship requirements, including applicable refuge requirements for insect resistance management, for the biotechnology traits expressed in the seed as set forth in the technology agreement that you sign. By opening and using a bag of seed, you are reaffirming your obligation to comply with those stewardship requirements.

Monsanto Company is a member of Excellence Through Stewardship® (ETS). Monsanto products are commercialized in accordance with ETS Product Launch Stewardship Guidance, and in compliance with Monsanto's Policy for Commercialization of Biotechnology-Derived Plant Products in Commodity Crops. This product has been approved for import into key export markets with functioning regulatory systems. Any crop or material produced from this product can only be exported to, or used, processed or sold in countries where all necessary regulatory approvals have been granted. It is a violation of national and international law to move material containing biotech traits across boundaries into nations where import is not permitted. Growers should talk to their grain handler or product purchaser to confirm their buying position for this product. Excellence Through Stewardship® is a registered trademark of Biotechnology Industry Organization.

IMPORTANT: Grain Marketing and Seed Availability: Genuity™ SmartStax™ has received the necessary approvals in the United States, however, as of 10/19/2009, approvals have not been received in certain major corn export markets. Genuity™ SmartStax™ will not be launched and seed will not be available until after import approvals are received in appropriate major corn export markets. B.t. products, including Genuity™ SmartStax™ may not yet be registered in all states. Check with your Monsanto representative for the registration status in your state.

ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS. Roundup Ready® crops contain genes that confer tolerance to glyphosate, the active ingredient in Roundup® brand agricultural herbicides. Roundup® brand agricultural herbicides will kill crops that are not tolerant to glyphosate.
