

KEY HYBRID FEATURES

- Early flowering 85 day hybrid with impressive top-end yield potential
- Excellent overall agronomics with outstanding stalk strength
- Excellent grain quality and test weight. Good choice for ethanol production
- This hybrid has very good early vigor for all tillage systems
- Position on better water holding capacity soils for maximum performance
- Widely adapted genetics from east to west across the northern corn belt
- Available as an **conventional, Agrisure GT, Agrisure CBLL and Agrisure GTCBLL hybrid**
