

L-3333 Performance Report

(95 Day)

KEY HYBRID FEATURES

- Excellent yield stability from year to year and soil type to soil type
- Excellent plant health with very good late season intactness
- Later flowering 95 day that moves east to west across the northern corn belt
- Consistent semi-flex ear type with 16-18 kernel rows
- This hybrid can handle higher populations for intensive management
- Good choice for silage dual-purpose market as well
- Available as an **RRBT & VT3 hybrid**
